

## Investor input in development of IIGCC's Net Zero Investment Framework

The [Net Zero Investment Framework](#) was developed through discussions and collaborative efforts of the Paris Aligned Investment Initiative Working Groups (which are part of the IIGCC Investor Practices Programme). Members were generous in contributing reflections from their own experiences in aligning portfolios and strategies with climate goals and gave insightful comments during working group meetings and on drafts of reports from the working groups. The names of the organisations involved are below.
